

**ROME TOWNSHIP  
LENAWEE COUNTY**

**RESOLUTION TO IMPOSE A MORATORIUM ON THE ISSUANCE OF PERMITS,  
LICENSES, OR APPROVALS FOR DATA CENTERS**

At a regular meeting of the Township Board for the Township of Rome, Lenawee County, Michigan, held on the 9 day of APRIL, 2026, at 7:00 p.m.

PRESENT: LEO OSWALD; JEREMIAH RUTTKOFSKY; BILL MILLNER

ABSENT: ROXANN SWEET; ROBIN ROBERTSON

The following preamble and resolution were offered by JERAMIAH RUTTKOFSKY and seconded by LEO OSWALD.

WHEREAS, the Michigan Zoning Enabling Act, 2006 P.A. 110, being MCL 125.3101 *et seq.*, authorizes Rome Township (the “Township”) to adopt reasonable regulations to control the establishment and use of Data Centers in the Township; and

WHEREAS, “Data Centers,” for purposes of this moratorium, means a structure that principally houses information technology infrastructure and equipment for building, running, and delivering applications and for the storage of digital data, including without limitation cryptocurrency mining and artificial intelligence; and

WHEREAS, the establishment of Data Centers, particularly in more rural areas, is a new and emerging land use that may have substantial and adverse impacts on adjacent and nearby properties; and

WHEREAS, according to various scientific and media reports, some of which are attached as **Exhibit A**, Data Centers consume enormous amounts of electricity and potentially water; and

WHEREAS, based on these reports, the Township Board finds that Data Centers pose a potential risk to the Township's electrical grid and water supply; and

WHEREAS, regulated utilities and Data Center developers are litigating how Data Centers will be regulated throughout the State of Michigan;

WHEREAS, the Township finds that it is necessary and reasonable to establish a moratorium upon the issuance of any and all permits, licenses, and approvals for any property subject to or under the jurisdiction of the Township's Zoning Ordinance for the establishment and use of Data Centers for **12** months or until the Township adopts new regulations concerning Data Centers and such regulations take effect, whichever occurs first; and

WHEREAS, pursuant to Section 11.94 of the Zoning Ordinance the Township Board may impose temporary moratoria by resolution on the review or issuance of any and all applications, permits, rezonings, licenses, or approvals for special or other land uses in the Township if the Township Board desires to review, enact, or amend provisions of the master plan or zoning ordinance to regulate existing or emerging land uses that may impact the health, safety, or welfare of township residents or property; and

WHEREAS, the Township finds that adopting such a moratorium is in the best interest of the public health, safety, and welfare and that the Township desires to review, enact, or amend provisions of the master plan and/or the Township Zoning Ordinance in order to determine whether regulations are necessary for the use and development of Data Centers in the Township.

NOW, THEREFORE, the Township Board of Rome Township resolves as follows:

1. The Township Board hereby petitions the Township Planning Commission to consider regulations regarding Data Centers, including without limitation where such uses may be permissible and appropriate, regulations to mitigate adverse impacts on adjacent properties

and uses, and thereafter make recommendations to the Township Board regarding any such proposed amendments in accordance with the procedures set forth in the Michigan Zoning Enabling Act, Public Act 110 of 2006, as amended.

2. For purposes of this Resolution, a “Data Center” means a structure that principally houses information technology infrastructure and equipment for building, running, and delivering applications, and the storage of digital data, including without limitation cryptocurrency mining and artificial intelligence.

3. In accordance with Section 11.94 of the Zoning Ordinance, the Township Board finds that adopting such a moratorium is in the best interest of the public health, safety, and welfare and that the Township desires to review, enact, or amend provisions of the master plan and/or the Township Zoning Ordinance in order to determine whether regulations are necessary for the use and development of Data Centers in the Township.

4. Imposing a moratorium, on a limited temporary basis, is reasonable and necessary to allow time for review of and potential amendments to the Township’s Zoning Ordinance and/or Master Plan.

5. A moratorium should be imposed upon the issuance of any and all permits, licenses, and approvals for any property subject to or under the jurisdiction of the Township’s Zoning Ordinance for the establishment and use of Data Centers or until an amendment to the Township’s Zoning Ordinance regarding Data Centers is effective, whichever occurs first.

6. A moratorium is hereby imposed on the review or issuance of any and all applications, permits, rezonings, licenses, or approvals in the Township for Data Centers, so long as this Resolution is in effect.
